

AVAILABILITY OF DRUGS RECOMMENDED FOR THE TREATMENT OF SYPHILIS

Drug manufacturers and wholesalers identify drugs by their National Drug Code (NDC) directory number. Use of these codes may facilitate precision in communicating with these groups. Syphilis treatment recommendations, along with drug ordering information including NDC numbers, are listed in the first table below. The second table lists contact information for wholesalers that distribute syphilis drugs within the United States.

‡A note from the CDC: If running low on supply of Benzathine Penicillin (i.e. depletion within a week), ask your local wholesaler to contact Randy Noonchester at King Pharmaceuticals at 423-990-8313 so King can work with the wholesaler to have the supplies sent out immediately. Again, the wholesaler will take responsibility for handling and delivering the drug to you. For legitimate, medical emergency situations where efforts to obtain product from your wholesaler have been unsuccessful, please contact Randy Noonchester at King directly. He will work to facilitate delivery of the drug directly to the practice/institution.
